

NEXO[®] Contrast Management System

Intended Use:

The NEXO[®] Contrast Management System is a server-based application intended to be used as a data management and visualization system. The NEXO Contrast Management System can read, store, share, compare/relate, as well as graphically display data and injection programs coming from RIS, PACS, and multiple enabled EmpowerCTA[®] Injector Systems. This device provides users with record lists, graphics, and reports about data and performances.

This device is intended for retrospective and statistical data management and visualization. It is not intended for real-time data visualization, diagnostic applications, or for any other use for which the device is not indicated. This device is only to be operated by and under quasi-continuous supervision of qualified and trained staff in an appropriately licensed healthcare facility.

The NEXO Contrast Management System is compatible with the EmpowerCTA Injector System version 8.0, and EmpowerCTA^{®+} Injector System version 10.0 and higher.

Not all products are available in all global markets.
