

Carbon Reduction Plan

Bracco UK Ltd

Bracco UK Ltd is committed to achieving net zero emissions by 2045 when we plan to have reduced our emissions by 90%.

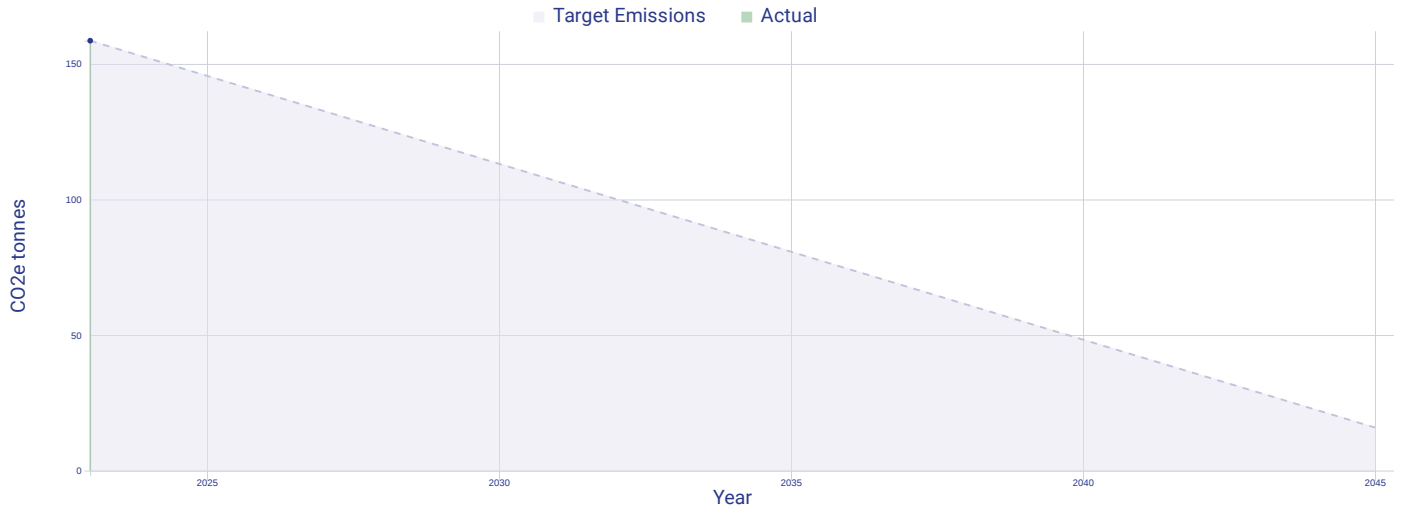

Baseline Emissions Footprint vs Current Emissions Footprint

Baseline emissions are a record of the greenhouse gasses that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Carbon Reduction Projects

The following environmental management measures and projects are currently in progress or have been completed since the 2023 baseline.

Actions In Progress

Business Mileage (private vehicle)

Target Completion Date: 31/12/2024

Objective

To minimise environmental impact through reduced business travel while maintaining operational effectiveness.

Target

Achieve measurable reduction in business travel emissions relative to employee headcount through enhanced journey efficiency and sustainable transport adoption.

Action, Improvement or Control

Develop smart travel solutions through route optimisation, geographical meeting consolidation, virtual meeting adoption where appropriate. Also encourage staff to purchase and or transition to hybrid/electric vehicles.

Serviced Office Data

Target Completion Date: 31/12/2024

Objective

To gain a comprehensive understanding of the carbon emissions and environmental impact associated with the serviced office operations.

Target

Complete a detailed emissions assessment of all serviced office activities and utilities consumption by next CRP review. Identify ways to ensure we know what emissions are associated with the Gas and Electricity, and speak with the serviced office managers to talk about how to reduce them going forward.

Action, Improvement or Control

Conduct a thorough audit of energy usage, waste management, and building operations through collaboration with the serviced office provider.

Data Collection

Target Completion Date: 31/12/2024

Objective

To improve the quality and reliability of organisational data collection processes.

Target

Enhance data accuracy standards across all departments within the next fiscal year.

Action, Improvement or Control

Implement standardised data collection procedures and strengthen monitoring systems.
